

A. Nomination by shareholder Christian Hamburger on item 6

Betreff: Carl Zeiss Meditec AG Annual General Meeting Nomination for Supervisory Board

Ladies and gentlemen,

Thank you for the invitation to the Annual General Meeting of Carl Zeiss Meditec AG.

With regard to the Supervisory Board candidates you have proposed for election, I would like to point out that I cannot understand, how Ms Bullinger-Hoffmann, with her various advisory positions, can devote the time required for the Supervisory Board mandate of Carl Zeiss Meditec AG.

Therefore, I would like to submit the attached nomination to you and stand as an opposing candidate.

Best regards,
Christian Hamburger

48167 Muenster
Germany

Christian Hamburger
Head of Media Technology
University of Muenster

Since 2021, Mr. Hamburger has been in charge of media technology at the University of Muenster and, together with his dedicated team, is the contact person for the operation and expansion of all media technology trades at the university.

Mr. Hamburger completed a part-time degree in quality management (FH) for manufacturing and organizational processes at the University of Schmalkalden. He is a state-certified electrical engineering technician and has also completed further training as a certified technical business economist and occupational safety specialist.

Mr. Hamburger has 14 years of experience in the field of manufacturing electronic medical devices, as well as experience in the media technology industry.

He has assumed responsibility in the areas of data protection, corporate environmental protection and occupational safety and has thus built up a broad range of specialist expertise.

Mr. Hamburger does not hold any mandates on other German supervisory boards and can provide the time commitment expected for membership of the Supervisory Board.

Stages of his professional career

- Since 2021 Head of Media Technology at the University of Muenster
- 2011 – 2021 Quality management and previously quality assurance at Tunstall GmbH in Telgte, a manufacturer of nurse call systems for hospitals and care facilities
- 2019 Appointment as occupational safety officer and environmental protection officer of Tunstall GmbH
- 2011 Appointment as company data protection officer of Tunstall GmbH
- 2007 – 2011 Approval officer at Power Systems Technologies GmbH in Ostbevern, a manufacturer of power supply units for medical devices and electronic products
